Please be specific and detailed in describing your current semester project, using additional pages when necessary.

1. Please outline your correspondence with your supervisor, giving the dates your packets were mailed and their contents (amount of creative work, number of annotations, length of letters, other communication) and the dates and content of faculty response (length of letters, annotations of manuscripts, extent of other communication):

2. Are you satisfied with the progress you have made toward your project goals thus far (or have the goals changed)? Do you see change in your work (increased quality, productiveness, awareness of form, critical sophistication, shifts in style and direction)? What areas need improvement?

3. Are you satisfied with the response you have received from your supervisor?  
Are the responses clear, detailed and helpful? Can you think of ways in which the exchange could be more profitable? Have you suggested them to your supervisor?

4. Would you recommend that other students work with this faculty member?

5. Do you feel well served by the Program?

6. Do you intend to continue your studies in the Program next semester? If so, what project do you plan to undertake next semester?

I DO \_\_\_\_\_ DO NOT \_\_\_\_\_ wish this report to be kept confidential.

PLEASE NOTE: Midterm evaluations are for counseling purposes only. If you choose to keep this report confidential, we are not able to refer specifically to any part of this evaluation. If there are problems, confidentiality severely limits the Program's ability to help alleviate them. In either case, however, this form does NOT become part of your permanent record.
